**Subject:** U.S. v. Microsoft

To whom it may concern:

I feel it necessary to voice my opinion in regards to the U.S. v. Microsoft case in hopes that this case will finally settle. As a concerned citizen, and as a business woman in Buffalo, NY, I strongly believe that the continuation of this lawsuit will only serve to put continued undue pressure on our economy and damage further economic advancement possibilities. Buffalo is a perfect example of a city that has been first into any national economic slump and last out. I can only see this lawsuit negatively impacting the economy further. Further funding of a lawsuit that is going after an incredibly successful company - which has been built on the principle of free enterprise that we as Americans so value - will only serve to help Microsoft's competition and do nothing for medium to small businesses. Thank you for your attention to my opinion -
